

FastTrak[®] WM+
Integration made easy[™]

GRSI Launches Revamped Website

Conshohocken, PA, 3/31/2011 – Glen Road Systems, Inc. (GRSI) has announced the release of their completely revamped and dynamic website (<http://www.grsinc.com>). The new site is more user-friendly and provides industry-specific information for potential clients' needs.

GRSI's comprehensive approach has resulted in a significant number of successful warehouse automation and integration projects. GRSI utilizes its core competencies and expertise to supply its clients with cost effective and efficient order fulfillment solutions. *FastTrak WM+*, GRSI's proprietary software suite, streamlines all warehouse operations for more efficient operation as well as reducing labor costs. It is comprised of a warehouse management system (WMS), warehouse control system (WCS), order management system (OMS), packaging integration (PI) system, and host interface.

For more information, including an informational brochure, visit GRSI online at <http://www.grsinc.com/> or email solutions@grsinc.com.
